

Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website.

Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.

Erratum

Erratum to “Characteristics of COVID-19 epidemic and control measures to curb transmission in Malaysia” [Int J Infect Dis 101 (December) (2020) 409–411]

Chris Fook Sheng Ng^{a,*}, Xerxes T. Seposo^a, Meng Ling Moi^{a,b},

^c Faculty of Health Sciences, Universiti Kebangsaan Malaysia, Kuala Lumpur, Malaysia

The publisher regrets the following errors in the final published paper:

- 1 Highlights 2 and 3 are incorrect. The correct highlights are as follows:
 - Instantaneous reproduction number R_t peaked at 3.1 and case fatality rate is 1.4.
 - Movement control measures began 3 days after peaked R_t and implemented in stages.
- 2 Supplemental file was incorrect. Correct version has now been replaced online.
- 3 Correct Funding information should be:

This work was supported by Japan Agency for Medical Research and Development (AMED) [Grant Number 20wm0125006] under the Japan Initiative for Global Research Network on Infectious Diseases (J-GRID) program. The funder had no role in the study design, collection of data, preparation of the manuscript, or decision to publish.

The publisher would like to apologise for any inconvenience caused.
