

CORRIGENDUM

Lung Function Assessment by Impulse Oscillometry in Adults [Corrigendum]

Porojan-Suppini N, Fira-Mladinescu O, Marc M, Tudorache E, Oancea C. *Ther Clin Risk Manag.* 2020;16:1139–1150.

On page 1146, Other Diseases – Graft Function, Lung Transplant, Sickle-Cell Disease section, “A recent Chinese study, performed on 156 lung-transplanted patients, shows that Oscillometry identified physiological changes associated with grade 2 acute cell rejection that

were not observed on spirometry and it’s use for graft monitoring after a lung transplant.¹⁰⁰” should read “A recent study, performed on 156 lung-transplanted patients, shows that Oscillometry identified physiological changes associated with grade 2 acute cell rejection that were not observed on spirometry and it’s use for graft monitoring after a lung transplant.¹⁰⁰”

The authors apologize for this error.

Therapeutics and Clinical Risk Management

Dovepress

Publish your work in this journal

Therapeutics and Clinical Risk Management is an international, peer-reviewed journal of clinical therapeutics and risk management, focusing on concise rapid reporting of clinical studies in all therapeutic areas, outcomes, safety, and programs for the effective, safe, and sustained use of medicines. This journal is indexed on PubMed Central, CAS,

EMBASE, Scopus and the Elsevier Bibliographic databases. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
