The international journal *Hepatobiliary Surgery and Nutrition (HBSN)* offers a great opportunity to the French Association of Hepato-Biliary Surgery and Liver Transplantation (ACHBPT). Indeed, each of the monthly “analyzed articles” written by our colleagues will be submitted for publication as an editorial in *HBSN*. Of course, it has to be written in English and edited by one of our expert members (*Video 1, Figures 1,2*).

Editors

- ❖ Professor Yilei Mao (Editor in Chief of *HBSN*);
- ❖ Professor Fabrizio Panaro (Topic Editor of *HBSN*).

Five steps

- (I) Selection of an online first and ahead of print original article dealing with HBP surgery and transplantation.
- (II) The very first days of each month, the selected article will be given for analyzing to one of our members (pancreas, bile duct, liver, transplantation, etc.).
- (III) The editorial must be back to the editorial office on week 2 for expertise. A French version will be sent for publication on the ACHBPT website. The English version will be sent to *HBSN*.
- (IV) The English version will be sent to *HBSN* via Professor Fabrizio Panaro.
- (V) All the editorials must be written according to the *HBSN* guidelines and revisions could be mandatory.
