Lowe J, Rumbold B, Aoun SM. Memorialisation during COVID-19: implications for the bereaved, service providers and policy makers. *Palliative Care and Social Practice* 2020; 14:1-9. doi:10.1177/2632352420980456

In the above-referenced article, the following information has been corrected:

Page 1, “Introduction” section, paragraph 2, the date that COVID was first reported to the WHO was incorrectly listed as ‘30 December 2020’. The correct sentence reads as:

“Since COVID-19 was first reported to the WHO by Chinese authorities on 30 December 2019, the social practices surrounding death and the disposal of bodies throughout the world<sup>6</sup> have been shaped by legal, behavioural and social interventions intended to contain the outbreak.”

The online version of the paper has been corrected.
