Correction to: *European Journal of Human Genetics*  
<https://doi.org/10.1038/s41431-020-00761-1>

In the text of the original article linked to this correction article, we the authors incorrectly wrote “receptive” which has been changed to:

Revised text (page 8 of the online PDF):

Association between deletion size and language phenotype.

There was a strong association between deletion size and expressive language raw scores (co-efficient:  $-1.57$ , 95% CI:  $-3.2$  to  $0.08$ ,  $p = 0.061$ ): as deletion size increased, **expressive** language scores decreased.

This has now been corrected in both the PDF and HTML versions of this article.
