

Corrigendum

Corrigendum to: Routine imaging of the preterm neonatal brain

In: Mireille Guillot, Vann Chau, Brigitte Lemyre. Routine imaging of the preterm neonatal brain. *Paediatr Child Health* 2020;25(4):249–255. <https://doi.org/10.1093/pch/pxaa033>
The authors realized modifications should made to the published version of our CPS position statement (pxaa033) regarding the dates for the literature review. We have added the following sentence to the methodology section to reflect the

more up-to-date references: “Additionally, a targeted literature search (2017–2020) was performed specifically related to IVH and brain injury.” Throughout the article, we have also updated those sections where details may have changed as a result of including these more up-to-date references.

The corresponding French version of the article (pxaa030) has also been updated.
