Article title: Brain-targeted delivery of PEGylated nano-bacitracin A against Penicillin-sensitive and -resistant Pneumococcal meningitis: formulated with RVG29 and PluronicVR P85 unimers

Authors: Wei Hong, Zehui Zhang, Lipeng Liu, Yining Zhao, Dexian Zhang and Mingchun Liu

Journal: Drug Delivery

Bibliometrics: Volume 25, Number 01, pages 1886–1897

DOI: [10.1080/10717544.2018.1486473](https://doi.org/10.1080/10717544.2018.1486473)

When this article was first published online there were errors in Figures 4E & 5A as detailed below. These errors have been corrected in the online version of the article.

1. In Fig. 4E, two sets of data were mixed up in this experiment. The correct data is shown below.

2. In Fig. 5A, the images for PEGylated Nano-BA_{12K} are not correct. Images of mice lying face-up on the test board should have been used since the authors wanted to observe the drug distribution in the brain. In the original article, however, images of mice lying face-down on the test board were used, and at this position the brain cannot be clearly observed. The updated figure including the correct images for PEGylated Nano-BA_{12K} is shown below.
