## REASON FOR WITHDRAWAL FROM PUBLICATION

This Cochrane Review has been withdrawn from publication. Errors were identified in the data extraction process and in the reporting of results, and as such the findings of the review may not be reliable. The authors and the Cochrane Neonatal Co-ordinating Editor agreed to withdraw the review, following an internal investigation. The authors are undertaking a full revision of this Cochrane Review, with the intention of publishing a new version.

The editorial group responsible for this previously published document have withdrawn it from publication.

## HISTORY

Protocol first published: Issue 5, 2019

Review first published: Issue 1, 2021

Date	Event	Description
27 May 2021	Amended	Minor edits to forest plots.

## SOURCES OF SUPPORT

### Internal sources

- None, Other

### External sources

- Vermont Oxford Network, USA

Cochrane Neonatal Reviews are produced with support from Vermont Oxford Network, a worldwide collaboration of health professionals dedicated to providing evidence-based care of the highest quality for newborn infants and their families.
