

Corrigendum to "Genetically predicted circulating concentrations of micronutrients and risk of colorectal cancer among individuals of European descent: a Mendelian randomization study. *Am J Clin Nutr* 2021. doi: <https://doi.org/10.1093/ajcn/nqab003>.

The conclusion to this paper erroneously stated "...of iron and vitamin B-12 with higher risk of colon cancer, and lower selenium concentrations with lower risk of the disease." This should have read "...of iron and vitamin B-12 with higher risk of colon cancer, and higher selenium concentrations with lower risk of the disease." This has been corrected online.

doi: <https://doi.org/10.1093/ajcn/nqab156>

Erratum to: Milky Ways: Effects of Maternal Obesity on Human Milk Composition and Childhood Obesity Risk. *Am J Clin Nutr* 2021;113(4):772–74.

The originally published version of this manuscript was based on an earlier version of Dr. O'Connor's paper, and thus some of the key points of data were out of alignment. These errors have been corrected online.
