
Expression of Concern About: Trends in Mental Health Symptoms, Service Use, and Unmet Need for Services among US Adults through the First Nine Months of the COVID-19 Pandemic

Rebekah Levine Coley¹ and Christopher F. Baum²

¹Department of Counseling, Developmental, and Educational Psychology, Boston College, 140 Commonwealth Ave., Chestnut Hill, MA 02467, USA

²Department of Economics and School of Social Work, Boston College, Chestnut Hill, MA, USA

Upon initial publication, it was noticed there was a coding error in the manuscript that significantly alters the outcomes of this paper. The coding has

been revised by the authors and the updated findings are currently under review. A revised paper is forthcoming.
