Author Correction: Serial dependence and representational momentum in single-trial perceptual decisions

D. Pascucci & G. Plomp

Correction to: *Scientific Reports* <https://doi.org/10.1038/s41598-021-89432-9>, published online 10 May 2021

The original version of this Article contained errors. The Data Availability section was not included; it has now been added and states:

Data Availability

The datasets analysed in this study are available at <https://doi.org/10.5281/zenodo.5140193>

Additionally, an error carried over from earlier version of this manuscript has been fixed in the Results, where

“However, SD by reported orientations was unaffected (peak bias of 1.86° at $\Delta = \pm 28^\circ$, deviation of about 6% toward the previous orientation, model fitting analysis: bootstrap $p < 0.001$; model-free analysis: $t(14) = 3.02$, $p = 0.009$, Cohen’s $d = 0.78$), despite the target stimulus in the last trial and the present one could occur six degrees away in retinal coordinates.”

now reads:

“However, SD by reported orientations was unaffected (peak bias of 1.70° at $\Delta = \pm 28^\circ$, deviation of about 6% toward the previous orientation, model fitting analysis: bootstrap $p < 0.001$; model-free analysis: $t(14) = 3.02$, $p = 0.009$, Cohen’s $d = 0.78$), despite the target stimulus in the last trial and the present one could occur six degrees away in retinal coordinates.”

The Article has now been corrected.
