

SI Correction

PHYSIOLOGY

Correction to Supporting Information for “CD95 triggers Orail-mediated localized Ca^{2+} entry, regulates recruitment of protein kinase C (PKC) $\beta 2$, and prevents death-inducing signaling complex formation,” by Nadine Khadra, Laurence Bresson-Bepoldin, Aubin Penna, Benjamin Chaigne-Delalande, Bruno Ségui, Thierry Levade, Anne-Marie Vacher, Josy Reiffers, Thomas Ducret, Jean-François Moreau, Michael D. Cahalan, Pierre Vacher, and Patrick Legembre, which was first published November 22, 2011; 10.1073/pnas.1116946108 (*Proc. Natl. Acad. Sci. U.S.A.* **108**, 19072–19077).

The authors note the following: “We provide corrected Figs. S1 *C* and *E*, S3 *F*, and S4 *A*, along with associated figure legends to correct inconsistencies of cell types and Ca^{2+} monitoring that arose during assembly of the supporting figures. These corrections do not require changes in the main text or in the conclusions of the paper.” The *SI Appendix* has been corrected online.
