This article has been retracted: please see Elsevier Policy on Article Withdrawal (<https://www.elsevier.com/about/our-business/policies/article-withdrawal>).

This article has been retracted at the request of the Editor-in-Chief and the authors.

An institutional inquiry concluded that two authors (A.C and S.O.) misrepresented data in Figures 3A, 4A and 6A, and that the report’s conclusions are not reliable. The other author (R.B.) was not found at fault.

The authors regret this and apologize to readers of *Neurobiology of Aging*.
