Figure 2 in the original version of this Article is a duplication of Figure 2 in the article “Huang, KJ., Li, YX., Sheu, BC. et al. Two-port access for laparoscopic surgery for endometrial cancer using conventional laparoscopic instruments. *Sci Rep* 11, 615 (2021). <https://doi.org/10.1038/s41598-020-79886-8>.” Both of these studies describe the same surgical technique for laparoscopic surgery, for which Figure 2 is a representative image.
