

Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website.

Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.

Correction to *Lancet Digit Health* 2020; 2: e435–40

Whitelaw S, Mamas MA, Topol E, Van Spall HGC. *Applications of digital technology in COVID-19 pandemic planning and response*. *Lancet Digit Health* 2020; 2: e435–40—In this Viewpoint, the third paragraph of the Planning and Tracking section of the paper should read: “Swedish Health Services, a USA-based health-care organisation, has developed a platform for health-care workers to report real-time data on volumes of patients with COVID-19, personal protective equipment, staffing, ventilator usage, and other resource information.⁹ This information has been shared across its hospitals to track the status of facilities, allocate health-care resources, and increase hospital bed capacity.⁹” This correction has been made as of Jan 27, 2021.
