

Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website.

Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.

## CORRECTION

### **Cardiac-MRI Predicts Clinical Worsening and Mortality in Pulmonary Arterial Hypertension: A Systematic Review and Meta-Analysis**

**J Am Coll Cardiol Img 2021**

S1936-878X(20)30731-2

10.1016/j.jcmg.2020.08.013

Study data has been updated for but not limited to: risk of death percentages, country information in Table 1, numerical values for HR (95% CI) and studies in Table 2, data within the Heterogeneity, Publication Bias subsections, and updates to Figures 2 and 3 and Supplemental Appendix.

The authors apologize for these errors.

The online version of the paper has been corrected to reflect these changes.
