Correction: Potentiation of tumor necrosis factor- α -induced tumor cell apoptosis by a small molecule inhibitor for anti-apoptotic protein hPEBP4

<https://doi.org/10.1016/j.jbc.2021.101261>

Jianming Qiu, Jianfeng Xiao, Chaofeng Han, Nan Li, Xu Shen, Hualiang Jiang, and Xuetao Cao

The IgG lanes of immunoblot panels Raf-1 and MEK-1 under DMSO in Fig. 6B contained blurred pixels. Both 90 minute timepoint bands in the p-IKK α / β immunoblots of Fig. 6C contained blurred pixels. The authors have provided new versions of the figures from replicate data. The corrections will not affect the results and scientific conclusions of the article.
