## Corrigendum: International Committee on Systematics of Prokaryotes Subcommittee on the taxonomy of *Halobacteria* and Subcommittee on the taxonomy of *Halomonadaceae*. Minutes of the joint open meeting, 11 July 2017, Valencia, Spain

David R. Arahal<sup>1</sup>, Aharon Oren<sup>2,\*</sup> and Antonio Ventosa<sup>3</sup>

*Int J Syst Evol Microbiol* 2017;67:4279-4283, doi: 10.1099/ijsem.0.002296

---

In the published version of this article, in the section ‘Minute 10, Phenotypic testing of strains of *Halobacteria*’ reference was made to comments sent by B. J. Tindall in an e-mail sent to the members of the subcommittees:

‘B. J. Tindall also commented that he had noted that over the years chemotaxonomic data have been published on members of the class *Halobacteria* that do not bear up to closer scrutiny.

This phenomenon also applies to some of the data published on members of the family *Halomonadaceae*’

The original text included in the e-mail that is formally corrected here read:

‘B. J. Tindall also commented that he also noted over the years some confusion being caused by data that is in circulation on members of the class *Halobacteria* that does not bear up to closer scrutiny.

This phenomenon also applies to some of the data published on members of the family *Halomonadaceae*’

The authors apologise for any inconvenience caused.
