

## Erratum to: Prognostic validation and clinical implications of the EANO ESMO classification of leptomeningeal metastasis from solid tumors

**Emilie Le Rhun, Patrick Devos, Johannes Weller, Katharina Seystahl, Francesca Mo, Anette Compter, Anna S. Berghoff, Joost L.M. Jongen, Fabian Wolpert, Roberta Rudà, Dieta Brandsma, Martin van den Bent, Matthias Preusser, Ulrich Herrlinger, and Michael Weller**

The authors of this article wish to note the following errors or inconsistencies: On page 1108, second full paragraph, the correct p value is 0.0007 (not 0.007). On page 1109, sixth line of text, the correct p value is 0.0003 (not 0.003). There are furthermore two inconsistencies with rounding: In Figure 2H, we provide a

p of 0.465 whereas in the text, we state 0.464 (page 1109, line 7). In Table 3, we provide a p value 0.019 whereas in the text, we say 0.018 (page 1109, line 2). The overall conclusions remain unaltered.
