This retracts the article "[Retracted Article: Effect of Perioperative Intravenous Lignocaine Infusion on Haemodynamic Responses and postoperative Analgesia in Laparoscopic Cholecystectomy Surgeries](#)".

I, as the corresponding author of the mentioned article [Anesth Pain Med. 2018; 8(2): e63490] and on behalf of all authors, state that because of conflict of interest among the authors plus due to the fact that tables in article were taken from a student thesis (plagiarized), decided to retract our article.

Kind Regards,
Kumar PV, Vinay
