In the originally published version of this article [Ali OH, Bomze D, Risch L, et al. Severe Coronavirus Disease 2019 (COVID-19) is Associated With Elevated Serum Immunoglobulin (Ig) A and Antiphospholipid IgA Antibodies. Clin Infect Dis 2020. [https://](https://doi.org/10.1093/cid/ciaa1496)

[doi.org/10.1093/cid/ciaa1496](https://doi.org/10.1093/cid/ciaa1496)], there was an error in Figure 2. The fourth column chart title currently reads “Cardiolipin IgM” but should have read “Cardiolipin IgG”. The article has been updated to reflect this change, and the publisher regrets this error.
