

CORRIGENDUM

Correction to:
Diabetes Technol Ther 2021;23(8):527–536

IN AUGUST 2021, our original article “Declining Frequency of Acute Complications Associated with Tubeless Insulin Pump Use: Data from 2,911 Patients in the German/Austrian Diabetes Patienten Verlaufsdokumentation Registry” by T. Biester, A. Schwandt, B. Heidtmann, B. Rami-Merhar, T. Haak, A. Festa, S. Kostow, A. Müller, Kirsten Mönkemöller, and T. Danne; for the DPV Initiative was published in *Diabetes Technology & Therapeutics* 2021;23(8):527–536.

On page 531, the lower panel of Figure 1 was inadvertently missed in the final version of the article. This has now been corrected with both panels for Figure 1 displayed online.

We apologize for this error.

Dr. Torben Biester, on behalf of all authors
