In the originally published version of this article, a primer sequence has an error. The primer sequence published in Table 1 for Amac MIF.99R is missing 3 bp (GCA). The correct primer sequence is: “5'-CCA TGC GCA ATT GCA AAC C-3'” instead of “5'-CCA TGC ATT GCA AAC C-3'”. These details have been corrected only in this corrigendum to preserve the published version of record. The author apologizes for any inconvenience this may have caused.
