(Molecular Therapy: Nucleic Acids 20, 279–291; June 2020)

The corresponding author requested extensive changes to the manuscript following its publication, including the removal of all patient data from the manuscript, encompassing the removal of Figures 1A, 1C, 4E, 5H, and S3F and Tables 1 and 2, as well as substitutions of Figures 7E and 8. After reviewing these requests, the Editors feel the findings of the manuscript can no longer be relied upon and have decided to retract the paper. The corresponding author has agreed to the retraction.
