

Statement of Retraction: Circular RNA circDLGAP4 is involved in lung cancer development through modulating microRNA-143/CDK1 axis

We, the Editors and Publisher of the journal *Cell Cycle*, have retracted the following article:

Bin Wang, Peiyan Hua, Bin Zhao, Jindong Li & Yan Zhang (2020) Circular RNA circDLGAP4 is involved in lung cancer development through modulating microRNA-143/CDK1 axis, *Cell Cycle*, 19:16, 2007-2017, doi:[10.1080/15384101.2020.1786649](https://doi.org/10.1080/15384101.2020.1786649)

Since publication, concerns have been raised about the integrity of the data in the article. When approached for an explanation, the authors have been unable to verify their original data, and therefore have agreed to retract the article.

We have been informed in our decision-making by our policy on publishing ethics and integrity and the COPE guidelines on retractions.

The retracted article will remain online to maintain the scholarly record, but it will be digitally water-marked on each page as 'Retracted'.
