

Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website.

Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.

Corrigendum

Corrigendum to ‘Unusual high number of spike protein mutations for the SARS-CoV-2 strains detected in Hong Kong’ [*Journal of Clinical Virology* 148 (2022) 105081]

Alan K.L. Tsang, Peter K.C. Cheng, Gannon C.K. Mak^{*}, Patricia K.L. Leung, Peter C.W. Yip, Edman T.K. Lam, Ken H.L. Ng, Rickjason C.W. Chan

Public Health Laboratory Services Branch, Centre for Health Protection, Department of Health, Hong Kong Special Administrative Region, Hong Kong SAR, China

The authors regret to report an error in citing the accession number of Wuhan reference strain WIV04.

The sentence ‘There were 34 differences of the S protein when comparing with the Wuhan reference strain WIV04 (GenBank accession number MN996528) (Table 1).’ should be ‘There were 34 differences of

the S protein when comparing with the Wuhan reference strain WIV04 (GISAID accession number EPI_ISL_402124, GenBank accession number MN996528) (Table 1).’

The authors would like to apologise for any inconvenience caused.
