

Errata/Corrigenda

F. S. Haddad

From The British Editorial Society of Bone & Joint Surgery, London, United Kingdom

Todd NV, Skinner D, Wilson-MacDonald J. Secondary neurological deterioration in traumatic spinal injury: data from medicolegal cases.

Bone Joint J 2015;97-B:527–531.

The authors regret that Table II contained five patients who were initially Frankel C who improved to Frankel D. The initial C/initial D patients were 0 i.e., the five had crept into the paper by mistake. The correct table is published below:

Table II. Initial and subsequent neurological deficit according to Frankel grade (n = 57; missing data in 2)

	Subsequent				
	A	B	C	D	E
Initial					
A	5				
B		1	2		
C	3	3	4		
D	3		1	4	
E	7	4	6	3	11

Weston-Simons JS, Pandit H, Kendrick BJ, Jenkins C, Barker K, Dodd CA, Murray DW. The mid-term outcomes of the Oxford Domed Lateral unicompartmental knee replacement.

Bone Joint J 2014;96-B:59–64.

The authors regret that the abstract in this paper should state:

A total of 12 knees (4.5%) had re-operations, of which four (1.5%) were for dislocation.

Rather than:

A total of 13 knees (4.9%) had re-operations, of which four (1.5%) were for dislocation.

Murray DW, Liddle AD, Dodd CAF, Pandit H. Unicompartmental knee arthroplasty: is the glass half full or half empty?

Bone Joint J 2015;97-B:3–8.

We regret that the name of one of the authors was published incorrectly. The correct version is printed above.

M-C. Lee, C-W. Ha, R. K. Elmallah, J. J. Cherian, J. J. Cho, T. W. Kim, S. I. Bin, and M. A. Mont. A placebo-controlled randomised trial to assess the effect of TGF- β 1-expressing chondrocytes in patients with arthritis of the knee.

Bone Joint J 2015;97-B:924–932.

The authors regret that some of the information supplied for the authors was incorrect. The correct information is supplied below:

S-I Bin, MD, PhD, Orthopaedic Surgeon (Corresponding Author); Department of Orthopaedic Surgery, University of Ulsan, College of Medicine, Asan Medical Center, Seoul, Korea.

M C Lee, MD, PhD, Orthopaedic Surgeon (Equal contribution as First Author), Department of Orthopaedic Surgery, Seoul National University Hospital, Seoul National University College of Medicine, Seoul, Korea.

C-W Ha, MD, PhD, Orthopaedic Surgeon (Equal contribution as First Author), Department of Orthopaedic Surgery, Samsung Medical Center, Stem Cell and Regenerative Medicine Research Center, Department of Health Sciences and Technology, SAIHST, Sungkyunkwan University School of Medicine, Seoul, Korea.

J J Cho, MS, Manager, Kolon Life Science, Inc., Seoul, Korea.

T W Kim, MS, Managing Director, Kolon Life Science, Inc., Seoul, Korea.

Whitehouse MR, Endo M, Zachara S, Nielsen TO, Greidanus NV, Masri BA, Garbuz DS, Duncan CP.

Adverse local tissue reactions in metal-on-polyethylene total hip arthroplasty due to trunnion corrosion: the risk of misdiagnosis.

Bone Joint J 2015;97-B:1024–1030.

The authors regret that incorrect image for figure 3 was supplied. The correct image is reproduced below:

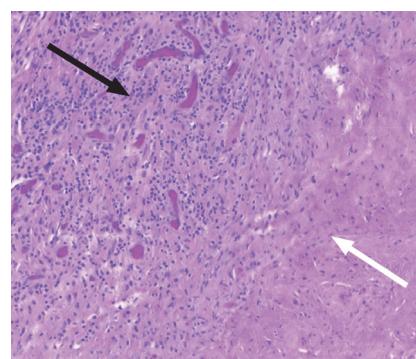

Fig. 3

Images of haematoxylin and eosin staining showing the typical histological appearance of a necrotic granulomatous pseudotumour with necrotic hyalinised tissue (indicated by white arrow) surrounded by a rim of lymphohistiocytic infiltration (indicated by black arrow).
