Retraction of “Controlled Nutrient Delivery to Pancreatic Islets Using Polydopamine-Coated Mesoporous Silica Nanoparticles”

Mehdi Razavi, Rosita Primavera, Bhavesh D Kevadiya, Jing Wang, Mujib Ullah, Peter Buchwald, Avnesh S Thakor

The authors retract this Letter due to an error in the representative confocal images in Figure 2, which occurred from incorrect labeling at the time of their acquisition. Accordingly, the authors cannot assign the correct images to the correct experimental group from their data archive; hence, they have decided to retract the paper until the experiments can be repeated with new images.

The original Letter was published on 9/10/2020 and retracted on 3/15/2022.
