

# Correction to ‘The nucleoporin Gle1 activates DEAD-box protein 5 (Dbp5) by promoting ATP binding and accelerating rate limiting phosphate release’

*Nucleic Acids Research*, gkac164, <https://doi.org/10.1093/nar/gkac164>

The authors wish to correct the sources of funding for Open Access charges in their article.

In the originally published version of the manuscript, the Funding statement read as follows:

National Institutes of Health [R35GM136656 to E.M.D.L.C. and R01GM124120 to B.M.]; S.G. is supported by R35GM136656-S1. Funding for open access charge: National Institutes of Health [R35GM136656 to E.M.D.L.C.]; S.G. is supported by R35GM136656-S1.

This has been amended to:

National Institutes of Health [R35GM136656 to E.M.D.L.C. and R01GM124120 to B.M.]; S.G. is supported by R35GM136656-S1. Funding for open access charge: National Institutes of Health [R01GM124120 to B.M.]; S.G. is supported by R35GM136656-S1.

This change does not affect the results, discussion and conclusions presented in the article.
