This article has been retracted at the request of the editors.

In investigating concerns of data fabrication in conjunction with a paper mill raised by a reader, the editors reached out to the authors to request the original data. Per journal policy, the editors, at their discretion, may request deposition of any or all original data files for examination by the reviewers and/or editors. As a result of the authors' failure to provide these data—in violation of journal policy—the editors feel that the findings of the manuscript cannot be relied upon.
