(Molecular Therapy: Nucleic Acids 17, 563–577; September 2019)

This article has been retracted at the request of the editors of *Molecular Therapy – Nucleic Acids*.

During an investigation, evidence for image duplication in identical or altered fashion in Figures 2C, 5B, and 6G was identified. This reuse (and in part, misrepresentation) of data without appropriate attribution represents a severe abuse of the scientific publishing system. The authors did not respond when contacted about the retraction.
