(Molecular Therapy: Nucleic Acids 19, 468–481; March 2020)

This article has been retracted at the request of the editors of *Molecular Therapy – Nucleic Acids*.

After concerns were raised by a reader, evidence for image duplication in identical or altered fashion in Figures 5B and 5C were identified. This reuse (and in part, misrepresentation) of data without appropriate attribution represents a severe abuse of the scientific publishing system. The authors have agreed to the retraction.
