

Correction for Riemersma et al., “Rapid Evolution of Enhanced Zika Virus Virulence during Direct Vertebrate Transmission Chains”

Kasen K. Riemersma,^a Anna S. Jaeger,^b Chelsea M. Crooks,^a Katarina M. Braun,^a James Weger-Lucarelli,^c Gregory D. Ebel,^d Thomas C. Friedrich,^a Matthew T. Aliota^b

^aUniversity of Wisconsin–Madison, Madison, Wisconsin, USA

^bUniversity of Minnesota, Twin Cities, St. Paul, Minnesota, USA

^cVirginia Tech, Blacksburg, Virginia, USA

^dColorado State University, Fort Collins, Colorado, USA

Volume 95, no. 8, e02218-20, 2021, <https://doi.org/10.1128/JVI.02218-20>. Page 3, line 2 from the bottom: “ $P = 0.0009$ ” should read “ $P = 0.0001$.”

Page 4: In Fig. 2D, the ZIKV-BC trace was graphed incorrectly, indicating a larger effect than there actually is. The ZIKV-BC trace has been corrected to represent the correct values, and the P values have been adjusted.

Fig. 2D should appear as shown below.

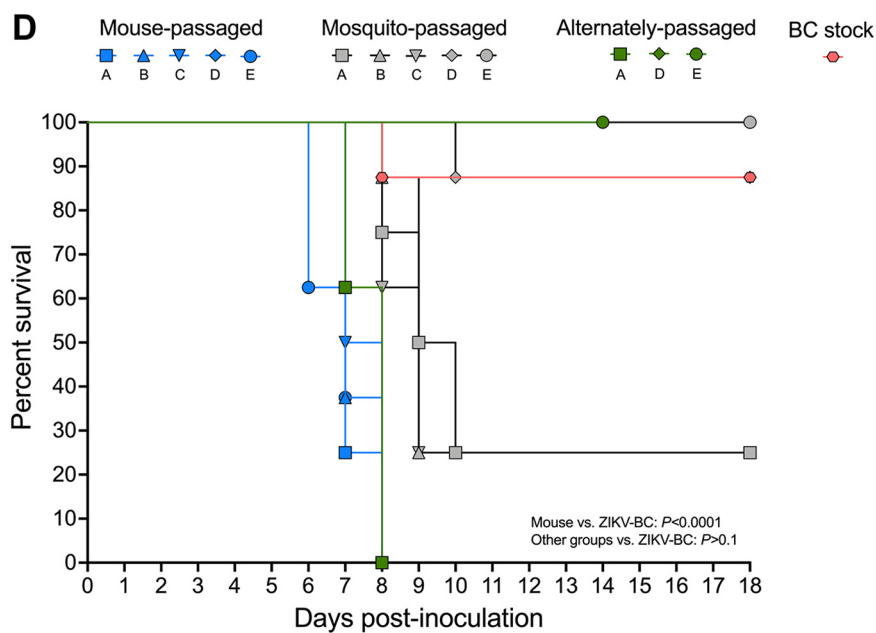

FIG 2

These errors do not alter the overall results or conclusions of the published article.
