In the original publication of this article [Paganelli CR, Kassebaum N, Strong K, et al. Guidance for Systematic Integration of Undernutrition in Attributing Cause of Death in Children. *Clin Infect Dis*. Volume 73, Issue Supplement\_5, 15 December 2021, Pages S374–S381, <https://doi.org/10.1093/cid/ciab851>], there were a number of minor errors which have been corrected in the originally published version of this manuscript. In Table 1 on the Moderate Wasting line, 'WLZ score below –2 but above –3' should read 'WLZ score below –2 but

above or equal to –3'. In the MITS ANTHROPOMETRY section, the statement on WHO growth standards for children ≥5 years of age has been corrected to '>5 years of age'. In the section Objective 1: Establish Guidance for When to Include Severe and Moderate Wasting and Stunting in Death Certification and in Part 1 (Causal Chain) or Part 2 (Contributing Condition), the reference to Figure 1 has been corrected to reference Figure 2. The Figure 2 reference at the end of this section has been removed. The access date has been added to Reference 37.

## Correction to: Reply to van Deun and Decroo

J. P Peter Cegielski,<sup>1</sup> Zarir F. Udawadia,<sup>2</sup> Piret Viiklepp,<sup>3</sup> Jae-Joon Yim,<sup>4</sup> and Dick Menzies<sup>5</sup>

<sup>1</sup>Rollins School of Public Health, Emory University, Atlanta, Georgia, USA, <sup>2</sup>PD Hinduja National Hospital and Medical Research Institute, Mumbai, India, <sup>3</sup>Estonian Tuberculosis Registry, National Institute for Health Development, Tallinn, Estonia, <sup>4</sup>Division of Pulmonary and Critical Medicine, Department of Internal Medicine, Seoul National University College of Medicine, Seoul, South Korea, and <sup>5</sup>Montreal Chest Institute & McGill International TB Centre, Montreal, Quebec, Canada

An error appeared in the 15 June 2021 issue of the journal (Cegielski et al. “Reply to van Deun and Decroo.” *Clin Infect Dis*; 72(12): e1168–e1169. <https://doi.org/10.1093/cid/ciaa1875>). The affiliation for the corresponding author, J. Peter Cegielski, is currently listed as “Division of Tuberculosis Elimination, U. S. Centers for Disease Control and Prevention (CDC), Atlanta,

Georgia.” In fact, Dr. Cegielski had retired from the CDC by the time the Letter Reply was published. His affiliation should read “Rollins School of Public Health, Emory University, Atlanta, Georgia.”

The author regrets this error.
