Correction for “Cryo-EM structures show the mechanistic basis of pan-peptidase inhibition by human α_2 -macroglobulin,” by Daniel Luque, Theodoros Goulas, Carlos P. Mata, Soraia R. Mendes, F. Xavier Gomis-Rüth, and José R. Castón, which published May 2, 2022; 10.1073/pnas.2200102119 (*Proc. Natl. Acad. Sci. U.S.A.* **119**, e2200102119).

The authors note that: “During the process of submission, an article appeared in the *Journal of Molecular Biology*, in which conclusions that were similar to a part of ours were reported for an ortholog of human α_2 -macroglobulin from the African clawed frog *Xenopus laevis*, (Y. Arimura and H. Funabiki. *J. Mol. Biol.* **434**: 167413, 2022).”

The article has been updated to add a reference to Arimura and Funabiki.
