Retraction notice

Retraction notice to “Preclinical assessment of transplantable human nasal mucosal epithelial cell sheets” [Regenerative Therapy 18 (2021) 59–65]

Kazuhisa Yamamoto ^{a,*}, Tsunetaro Morino ^{a,b}, Yoshiyuki Kasai ^a, Manabu Komori ^c, Masayuki Yamato ^b, Hiromi Kojima ^a^a Department of Otorhinolaryngology, Jikei University School of Medicine, Tokyo, Japan^b Institute of Advanced Biomedical Engineering and Science, Tokyo Women's Medical University, Tokyo, Japan^c Department of Otolaryngology, St. Marianna University School of Medicine, Tokyo, Japan

This article has been retracted: please see Elsevier Policy on Article Withdrawal (<https://www.elsevier.com/about/our-business/policies/article-withdrawal>).

This article has been retracted at the request of the corresponding author due to the following scientific errors:

1. The cell sheet subjected to paraffin-embedded sectioning and stained with HE in Figure 4B: This study is a cold-run study (pre-clinical study), not clinical study. However, this HE stained cell sheet photograph is that used in the clinical study.

2. Figure 3D: This study is a cold-run study (pre-clinical study), not clinical study. However, this phase contrast micrograph is that used in the human clinical study.

3. Line 6 of 2.3: Fig. 1A should be Fig. 2A.

4. Line 4 of 2.4: Streptomycin concentration: 69 μ M is correct.

To maintain the academic standards and rigor, the corresponding author requests the retraction of this paper. All authors and Editor-in-Chief agree with this retraction.
