RETRACTION

LINC01436 Promotes the Progression of Gastric Cancer via Regulating miR-513a-5p/APE1 Axis [Retraction]

Lu M, Liu D, Li Y. Onco Targets Ther. 2020;13:10607-10619.

The Editor and Publisher of *OncoTargets and Therapy* wish to retract the published article. Concerns were raised regarding the duplication of images in Figure 2E. Specifically,

• Figure 2E, Invasion, NC appears to have been duplicated with Figure 2E, Invasion, LINC01436.

The authors did not respond to our queries and were unable to provide original data for their study. The decision was made to retract the article.

Our decision-making was informed by our policy on publishing ethics and integrity and the COPE guidelines on retraction.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as "Retracted".

OncoTargets and Therapy is an international, peer-reviewed, open access journal focusing on the pathological basis of all cancers, potential targets for therapy and treatment protocols employed to improve the management of cancer patients. The journal also focuses on the impact of management programs and new therapeutic agents and protocols on patient perspectives such as quality of life, adherence and satisfaction. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit http://www.dovepress.com/testimonials.php to read real quotes from published authors.
