(Molecular Therapy 26, 2466–2475, October 2018)

Molecular Therapy is retracting this article. After investigating concerns of image duplication raised by a reader, evidence for image duplication in identical or altered fashion in Figures 4A, 4G, and S1C was identified. This reuse (and in part, misrepresentation) of data without appropriate attribution represents a severe abuse of the scientific publishing system. The authors do not agree to the retraction.
