Unfortunately, the original version of this article [1] contained an error with reference to the example participants' numbers.

In the original version, the example participants' numbers were given as participant 7 and participant 30. However, the in-text references refer to network figures of participants 5 and 21.

The correct figures for participant 5 and 21 are shown below.

The original article can be found online at https://doi.org/10.1186/s40337-021-00504-7.
