Correction: The relationship between police contacts for drug use-related crime and future arrests, incarceration, and overdoses: a retrospective observational study highlighting the need to break the vicious cycle

Alice Zhang^{1*}, Joseph A. Balles², Jennifer E. Nyland³, Thao H. Nguyen⁴, Veronica M. White⁵ and Aleksandra E. Zgierska¹

Correction to: *Harm Reduction Journal* (2022) 19:67
<https://doi.org/10.1186/s12954-022-00652-2>

Following the publication of the original article [1], the text 'Group 2 ($N = 263$): 12 months before their index contact (Table 3)' was misplaced wrongly. The correct insertion of the text is as follows:

Group 2 ($N = 263$): 12 months before their index contact (Table 3)

In the 12 months prior to their index contact, the majority (63.5%) of Group 2 members had at least one police contact, with 14.4% related to overdose. Approximately one-third (31.2%) of Group 2 had been arrested, with the majority being arrested for society arrests (21.3%), followed by property (9.9%) and person (4.6%) arrests. In Group 2, 6.5% of its members had an overdose-related arrest.

The original article has been corrected.
