RETRACTION

Effects of Combined Inhibition of STAT3 and VEGFR2 Pathways on the Radiosensitivity of Non-Small-Cell Lung Cancer Cells [Retraction]

Hu C, Zhuang W, Qiao Y, et al. Onco Targets Ther. 2019;12:933-944.

The Editor and Publisher of *OncoTargets and Therapy* wish to retract the published article. Concerns were raised regarding the alleged duplication of western blot images in Figure 2. Specifically,

• Figure 2, A1, GAPDH bands, appear to have been duplicated with the same bands from Figure 2, C1, Cyclin D1.

The authors responded to our queries but were unable to provide a satisfactory explanation for the alleged duplication, nor were they able to provide original data that could adequately verify the findings. The Editor requested to retract the article and the authors do not agree with this decision.

We have been informed in our decision-making by our policy on publishing ethics and integrity and the COPE guidelines on retractions.

The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as "Retracted".

OncoTargets and Therapy

Dovepress

Publish your work in this journal

OncoTargets and Therapy is an international, peer-reviewed, open access journal focusing on the pathological basis of all cancers, potential targets for therapy and treatment protocols employed to improve the management of cancer patients. The journal also focuses on the impact of management programs and new therapeutic agents and protocols on patient perspectives such as quality of life, adherence and satisfaction. The management system is completely online and includes a very quick and fair peer-review system, which is all easy to use.
