published online 05 June 2022

In the originally published manuscript there were errors in the labelling of three figures. In Figure 3b, the developing time of fruits was erroneously omitted. In Figure 4e, the group names “Ethephon+NDGA” and “ABA+1-MCP” were the wrong way round. In the Supplementary data, in Figure S3b there are two histograms labelled “SlRCAR9-11-12”. The histogram on the right should read “SlRCAR9-11-13”. These errors have been corrected online.
