This article (1) has been retracted at the request of the authors. In Fig. 2A, a portion of the image showing α -SMA expression in CAFs was also used in Fig. 4A showing α -SMA expression in CAF^{Control}. In addition, in Fig. 6B, portions of the p-p44/p42 Western blot were spliced together from separate blots, and lanes 3 to 4 were duplicated with lanes 5 to 6 in the p-AKT (473) Western blot.
