

**RETRACTION**

Retraction: Paleari L, Catassi A, Ciarlo M, Cavalieri Z, Bruzzo C, Servent D, Cesario A, Chessa L, Cilli M, Piccardi F, Granone P, Russo P. Role of  $\alpha 7$ -nicotinic acetylcholine receptor in human non-small cell lung cancer proliferation. *Cell Prolif.* 2008;41:936-959. <https://doi.org/10.1111/j.1365-2184.2008.00566.x>

The above article from *Cell Proliferation*, published online on 18 November 2008 in Wiley Online Library ([wileyonlinelibrary.com](http://wileyonlinelibrary.com)), and in Volume 41, pp. 936-959, has been retracted by agreement between the Editor in Chief, Dr Catherine Sarraf, and John Wiley and Sons Ltd. The retraction has been agreed upon following the recent confirmation regarding an internal investigation that was conducted by the Institutional Office for Research Integrity (UIR) at the National Institute for Cancer Research, Genova, Italy, in 2009, which found evidence of fabricated/duplicated data within the article.
