Chest CT Findings in Hospitalized Patients with SARS-CoV-2: Delta versus Omicron Variants

Soon Ho Yoon, Jong Hyuk Lee, Baek-Nam Kim

**Erratum in:**

<https://doi.org/10.1148/radiol.229022>

The following sentence and supporting reference were added to specify which Omicron subvariant predominated in the study population: **National genomic surveillance data have shown that the Omicron subvariant BA.1 was predominant in February 2022 in Korea (36).**
