

Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website.

Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.

Erratum to The Effects of Motivational Messages Sent to Emergency Nurses During the COVID-19 Pandemic on Job Satisfaction, Compassion Fatigue, and Communication Skills: A Randomized Controlled Trial [*Journal of Emergency Nursing*, Volume 48, Issue 5, September 2022, Pages 547-558]

Sonay Goktas, PhD, RN, Elif Gezginci, PhD, RN, and Hilal Kartal, RN, Istanbul, Turkey

We regret that the first author's name was written incorrectly as Sonya Goktas, and instead should have been written as Sonay Goktas.

We apologize for any inconvenience caused.
