

Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website.

Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.

**Correction to Lancet
Child Adolesc Health
2021; 5: 662–76**

Cerbone M, Visser J, Bulwer C, et al. Management of children and young people with idiopathic pituitary stalk thickening, central diabetes insipidus, or both: a national clinical practice consensus guideline. *Lancet Child Adolesc Health* 2021; 5: 662–76—In this Review, the spelling of author Ian Kamaly-Asl's name was incorrect. This correction has been made to the online version as of July 9, 2021.

**Correction to Lancet
Child Adolesc Health
2022; 6: 533–44**

Csölle I, Felső R, Szabó É, et al. Health outcomes associated with micronutrient-fortified complementary foods in infants and young children aged 6–23 months: a systematic review and meta-analysis. *Lancet Child Adolesc Health* 2022; 6: 533–44—In Figure 3 of this Article, “Favours fortified” should be on the left side and “Favours non-fortified” should be on the right side of the x-axis in this forest plot. This correction has been made as of Nov 16, 2022.

**Correction to Lancet
Child Adolesc Health
2022; 6: 788–98**

Kracalik I, Oster ME, Broder KR, et al. Outcomes at least 90 days since onset of myocarditis after mRNA COVID-19 vaccination in adolescents and young adults in the USA: a follow-up surveillance study. *Lancet Child Adolesc Health* 2022; 6: 788–98—In figure 4 of this Article, some of the labels were incorrect. These corrections have been made as of Nov 16, 2022.
