(Molecular Therapy: Nucleic Acids 21, 86–97; September 2020)

This article has been retracted at the request of the editor-in-chief. Similarities were reported between images in this article. These concerns were initially reported in a Pubpeer thread (<https://pubpeer.com/publications/B7028CC5B677FCE09CBE8185004715>). Image analysis performed by the editorial office confirmed the findings of image duplication in Figures 4K, 2F, 2H, and 5H. This reuse (and in part, misrepresentation) of data without appropriate attribution represents a severe abuse of the scientific publishing system.
