In the original published version of this article, an error was present in Tables 2 and 3. Specifically, authors have missed out the citation for both tables, which match with Tables 1 and 2 as seen in ‘Sacha inchi (*Plukenetia volubilis L.*): An emerging source of nutrients, omega-3 fatty acid and phytochemicals’ (<https://doi.org/10.1016/j.foodchem.2021.131459>), published in ‘Food Chemistry’. While the source of the data is provided, the source of the data as published in ‘Food Chemistry’ does not appear to be attributed. The correct citation along with the tables are displayed below. The authors/publisher apologize for the errors. Both the HTML and PDF versions of the article have been updated to correct the errors.

Table 2. Immediate composition of SI seed (kernel) and powdered SI.

Component	SI seed ^{1,2,3,4}	Powdered SI ^{5,6}
