(Molecular Therapy: Nucleic Acids 10, 292–303; March 2018)

This article has been retracted at the request of the editor-in-chief. Similarities were found between images in this article and an article in *Oncotarget* (An et al., 2017, *Oncotarget* 25, 49093-49109, <https://doi.org/10.18632/oncotarget.17095>). One author, D.L., appeared as an author of both papers. Image analysis performed by the editorial office confirmed findings of image duplication in Figure 6D of the *Molecular Therapy - Nucleic Acids* article. This reuse (and in part misrepresentation) of data without appropriate attribution represents a severe abuse of the scientific publishing system.
